

Low Water Surcharge in Manaus, Brazil

Tuesday, October 24, 2023

CMA CGM informs its customers that the navigability conditions on the Amazon River are still showing a great reduction in the water level along its bed due to the dry season. This draft restriction directly affects the cargo capacity with which ships can transit the river, limiting shipments and landings at the port of Manaus.

Therefore, the **Low Water Surcharge** (LWS) applying to all cargo from/to Manaus, Brazil, will be revised as follows:

Effective October 22nd, 2023

(November 20th, 2023 for US, US territories, Panama, Brazil, Ecuador, Uruguay, Paraguay, Venezuela, Argentina with amount set at USD 750 per TEU till October 24th, USD 1,100 per TEU from October 25th till November 19th, then USD 2,100 per TEU from November 20th, 2023)

- **Port:** Manaus, Brazil
- **Perimeter:** Import/Export
- **Cargo:** all
- **Amount:** USD 2,100 per TEU
- **Settlement:** As per freight
