

**Here's a reminder on the S&S GB regulations of the UK**

**Dear Customer,**

We know that your cargo planning happens across different geographies in the world. Therefore, we want to make sure that you keep yourself updated with the various customs regulations.

Since January 31, 2025 the **Safety and Security Declaration (S&S GB)** regulation requires advanced filings not only for cargo arriving at **Great Britain** ports on vessels from non-EU countries but also for cargo arriving from EU countries, no matter whether the cargo is discharged, transshipped or remains on board.

To comply with the UK Government's advanced filing requirements for safety and security declarations, we need your shipping instructions latest at time of document cut-off. If shipping instructions are not received in time we must follow "No doc/No load".

For further information you can view the previous CustomerNEWS on this subject by visiting [this page](#). Please be aware, that the UK Government has posted information about Safety and Security Requirements on Imports and Exports, which can be found at the following [link](#).

If you should require additional information, please contact our customer service team at [your location](#), who will guide you based on your individual situation.

Best regards,

**Francesco Di Bari**

from our Customer Communications Team
