

# Road Disruptions in Sindh

Dear Valued Customers and Partners,

Please be informed that ongoing protests across Sindh against the proposed construction of canals from the Indus River have led to disruptions along key road routes connecting North and South Pakistan.

As a result, some cargo movement—primarily from factories located in Lahore, Sialkot, Faisalabad, and Multan—has been temporarily impacted. A few suppliers have reported trucks being held in transit.

It is important to note that this disruption is limited to overland routes between North and South Pakistan. There is no impact on operations or cargo movement within Karachi city, including Karachi Port, Port Qasim, or any air freight shipments.

We are closely monitoring the situation and will provide updates as needed. For specific queries or further assistance, please feel free to reach out to your respective Key Account Teams.

Thank you for your understanding and continued support.

Regards

Owais Zubaidi
